

i Capital Education presents a one-day seminar on
“Understand Economic Indicators, Invest Successfully”

Speakers : Tan Teng Boo & his team

Venue : Ballroom B (1st Floor, Convention Centre), Renaissance Kuala Lumpur Date : 10 April 10 Time : 8a.m.- 5p.m.

Where is the global economy heading? Is China on the verge of a collapse? Will global interest rates keep rising? How will it impact currencies, economic growth and stock markets?

Globalisation has increased the linkages between economies and markets. A successful investor has to understand the slew of economic indicators released around the world and how they impact different financial and commodity markets and ultimately stock market performance. Just relying only on Price Earnings ratio to make an investment decision is no longer sufficient.

A sound understanding of the underlying global economic conditions is now essential for managing a successful business. It is invaluable whether in making strategic or near-term business decisions.

Capital Dynamics intends to share its insights and vast experience in a unique one-day seminar on understanding economic indicators. Our aim is to help investors, businessmen and management make sense of the economic data and use them to make better decisions in the stock market as well as in managing businesses.

The comprehensive seminar will explain the methodology used for various economic indicators and their interpretation. It will look at the current economic structures and sources of growth of the US, China, Eurozone, Japan, Australia, Singapore and Malaysia, as well as their distinctive individual characteristics. The vital economic indicators of each economy will be presented and their implications explained.

Examples on how investment decisions both in the stock market as well as in real business are linked with the economic data will be provided. After attending this seminar, participants will be more confident with their knowledge of the major economies and will be equipped to invest intelligently in the stock market as well as manage a business successfully.

i Capital Education presents a one-day seminar on

“Understand Technical Analysis, Trade Successfully”

Speakers : Tan Teng Boo & his team

Venue : Ballroom B (1st Floor, Convention Centre), Renaissance Kuala Lumpur Date : 11 April 10 Time : 8a.m.- 5p.m.

Market volatility has become treacherous in the recent past and is here to stay. Continued uncertainties and disparities in market opinions will only move markets and stocks in extremes.

Whilst many are sidelined, some savvy traders and investors are profiting handsomely from this volatility. To trade successfully, you must understand the risk return relationship and have the discipline to follow trading rules. Not just any arbitrary rules, but proven ones from knowing technical analysis and chart formations.

Capital Dynamics' comprehensive one-day seminar on Technical Analysis aims to equip you with the necessary skills - charting, technical analysis and money management - to profit from market volatility, regardless of market conditions and sentiment. At the end, understanding Technical Analysis will help you time your trades and investments with remarkable accuracy. Optimize your returns now.

Programme Flow

08:00 am - 09:00 am	Registration
09:00 am - 09:30 am	Introduction
09:30 am - 11:00 am	Trends and Chart Analysis
